On behalf of the Annual Biomedical Research Conference for Minority Students (ABRCMS), I would like to extend a heartfelt welcome to the ABRCMS 2020: The Virtual Experience. Due to the COVID-19 pandemic, ABRCMS is happening in your own spaces this year. While ABRCMS has been evolving since the first meeting in 2001, this year has placed the largest constraints on our evolution. As we face the COVID-19 pandemic, the protests against systemic racism, the suspension of in-person summer research programs (among other events), and the need to conduct our work largely virtually, all of these factors has placed a major strain on all of us. These events have clearly made the case for the importance of science, and that it should include all voices, which is why ABRCMS exists. I continue to be heartened and extremely proud that ABRCMS continues its very strong traditions of investment in diversity and inclusion with excellence in STEM.

Our long history and efforts to continue to diversify STEM, and the fact that we have been particularly challenged this year, led to the theme of this year’s meeting, “Visualizing a better Future in STEM.” ABRCMS is extremely proud of the role that we play in preparing Black, Indigenous, Hispanic/Latinx, and other underrepresented students for a career in STEM research. This meeting may be your first ABRCMS, or may be your 10th; nonetheless, we want it to be THE place where you feel you belong in STEM, and for it to be a continued part of your professional lives. We have been inspiring future leaders at this meeting, and as we continue our work to diversify the STEM research workforce, we want to continue to inspire even more. The COVID-19 pandemic and the devastating impact it has had on Black, Indigenous and Hispanic/Latinx communities, make it even more clear that only with a diverse scientific workforce can we hope to make strides and advances in issues such as health disparities, which has disproportionate impact on our communities. Addressing these and other issues will continue to require the breakthroughs that come from our communities. A more diverse workforce, with our current and our future leaders playing prominent roles, will accomplish this.

Given the challenges of the pandemic and online fatigue that we all face, we have assembled a smaller, but outstanding virtual program that will inspire, challenge and educate. For the future leaders of STEM attending, this is your chance to showcase your talent. I encourage you to take advantage of all that we have prepared for you. For the faculty mentors and advisors, this is your chance to demonstrate our inclusiveness and spirit of belonging that we strive to achieve at ABRCMS. We look forward to the exciting science from our community, the inspiring words of the presenters, and the engaging conversations with the exhibitors. At ABRCMS, we expect networking, the most cutting edge advances in the biomedical and behavioral sciences, and discussions of some of the most important issues facing minority students, as well as professionals as they impact our community. Moreover, while we are doing it safely and virtually, we expect no less in this year’s virtual meeting.

Going from an in-person to a fully virtual meeting for the first time takes a lot of hard work, planning and preparation by the ABRCMS Steering Committee, the ASM staff, the exhibitors, and many volunteers, who have done a remarkable job to make this meeting possible. They have invested their time and efforts towards the scientific program, evaluating abstracts, manning the virtual booths and making sure that everything is just right, so that you can experience what I know will be one of the most rewarding meetings of your careers. I would like to thank them all in advance for all their hard work making this unique meeting a success. Finally, we are eternally grateful for the continued support of Division of Training, Workforce Development, and Diversity at the National Institute of General Medical Sciences, NIH, whose funding has continued to make ABRCMS what it is.

With my warmest wishes,

Avery August, Ph.D.
Chairperson, ABRCMS
On behalf of the National Institutes of Health’s National Institute of General Medical Sciences (NIGMS), we’d like to welcome you to the 2020 Annual Biomedical Research Conference for Minority Students. We’re very proud to support this meeting, which brings together a community of outstanding students and scientists for stimulating discussions of research, careers, and more.

This meeting is one element of our many activities in the areas of training, workforce development, diversity, and research capacity building. Our NIGMS programs range from the high school level through the undergraduate, graduate, postdoctoral and faculty levels. For example, we support an array of programs to enhance diversity in the biomedical research workforce including Science Education Partnership Awards, Bridges to the Baccalaureate, Building Infrastructure Leading to Diversity, Maximizing Access to Research Careers, Research Training Initiative for Scientific Enhancement, Initiative for Maximizing Student Development, Postbaccalaureate Research Education, Bridges to the Doctorate, Institutional Research and Academic Career Development Awards, Maximizing Opportunities for Scientific and Academic Independent Careers, the Diversity Supplement Program, the Native American Research Centers for Health, the Support of Competitive Research Programs, and the National Research Mentoring Network.

For those of you who are joining as mentors and sponsors, we truly appreciate your dedication and many contributions to your students and our shared goals. For those of you still in training, we hope that your involvement in this meeting further inspires and motivates you to pursue careers in the biomedical research workforce and leadership roles in biomedical science. During the meeting, you will gain important allies for your future: a community of peers who will become your colleagues and friends as well as a network of scientists and mentors who are deeply committed to your success in pursuit of a biomedical research career.

We encourage you to make the most of the meeting and take every advantage of the resources and opportunities it offers to help you prepare for the next stages of your research career. We look forward to seeing your presentations and talking to you over the course of the next few days.

Sincerely,

Jon R. Lorsch, Ph.D.

ABRCMS Code of Conduct. The Annual Biomedical Research Conference for Minority Students (“ABRCMS”), managed by the American Society for Microbiology (“ASM”), is one of the nation’s largest conferences for underrepresented students in STEM.

ASM prohibits and will not tolerate any form of harassment or bullying at its events, whether the event is in-person or virtual. For more information, visit: www.abrcms.org/coc

ABRCMS Mobile App. Get the latest conference program, exhibitor information, live chat opportunities, Game Challenge, and much more at your fingertips with the ABRCMS Mobile App. Search for ABRCMS 2020 Virtual Experience in your app store.

Session Times. All session times are Eastern (EST).
Time Zone Conversions:
• Noon - 7:00 p.m. (EST)
• 11:00 a.m. - 6:00 p.m. (CST)
• 10:00 a.m. - 5:00 p.m. (MST)
• 9:00 a.m. - 4:00 p.m. (PST)

ADA Services. Pursuant to the Americans with Disabilities Act, if you require services or aids to participate fully in ABRCMS 2020: The Virtual Experience, please be sure to indicate this in the registration portal.

Photo Policy. In order to protect data shared during presentations, no photos nor screen shots may be taken of posters or scientific session slides at the ABRCMS 2020: The Virtual Experience conference.

Live Chats. Take this opportunity to join an INTERACTIVE and ENGAGING discussion on varied special interest topics and network with your peers.

ePosters. Check out the new ePoster feature, which will be available to all attendees from November 9 – 13, 2020, for the duration of the conference. Attendees will have access to all ePosters and a 5-minute audio file at any time on any device.

**ePoster Scientific Disciplines**
• EPBIO-001 – EPBIO-129: Biochemistry and Molecular Biology
• EPCAN-130 – EPCAN-192: Cancer Biology
• EPCEL-193 – EPCEL-237: Cell Biology
• EPCHE-238 – EPCHE-320: Chemistry
• EPCOM-321 – EPCOM-398: Computational and Systems Biology
• EPDEV-399 – EPDEV-467: Developmental Biology and Genetics
• EPENG-468 – EPENG-532: Engineering, Physics and Mathematics
• EPIMM-533 – EPIMM-573: Immunology
• EPMIC-574 – EPMIC-678: Microbiology
• EPNEU-679 – EPNEU-827: Neuroscience
• EPPHY-828 – EPPHY-895: Physiology and Pharmacology
• EPSOC-896 – EPSOC-1035: Social and Behavioral Sciences and Public Health

Concurrent Scientific Sessions. Scientific content will be shared with the STEM community by experts, who have a breadth of knowledge on emerging scientific concepts on the following dates/times:
• Tuesday, November 9, from 1:25 p.m. - 1:55 p.m. (ET)
• Friday, November 13, from 12:55 p.m. - 1:25 p.m. (ET)

Presentation Awards Ceremony. On Friday, November 13 (4:30 p.m. - 5:15 p.m.), ABRCMS will highlight oral and poster awardees from the 12 STEM disciplines represented at the conference.

Conference Evaluation. We value your feedback. At the conclusion of the conference, please take a few minutes to complete the Conference Evaluation in the mobile app. Please know that every completed evaluation helps us improve future conferences.

Aim Higher

Pursue your dream of a career in science

If you have an undergraduate degree and are passionate about scientific inquiry, consider grad school.

The Coordinated Doctoral Programs in Biomedical Sciences at the Vagelos College of Physicians and Surgeons are part of Columbia University Graduate School of Arts and Sciences and are located at the Columbia University Irving Medical Center campus. The Medical Center is home to over 2,000 basic and clinical faculty and 3,000 students. In addition to the graduate school, this intellectual powerhouse incorporates schools of medicine, dentistry, nursing and public health. The campus also includes NewYork-Presbyterian Hospital, ranked within the top 10 in the nation. Columbia’s diverse academic resources and proximity to other scientific institutions offer endless opportunities to attend data clubs, lectures and symposia, as well as to pursue research collaborations or learn new techniques.

We offer a range of nationally top-ranked PhD Programs. Regardless of program affiliation, students have access to our more than 250 training faculty when selecting their research direction, ensuring that each student receives optimal training and research experience. We also provide a supportive environment which goes beyond academics. We seek to foster a spirit of cooperation and communication rather than competitiveness amongst students and laboratories. We offer training in the following areas:

- Biomedical Informatics
- Cellular, Molecular and Biomedical Studies
- Cellular and Molecular Physiology & Biophysics
- Genetics and Development
- Microbiology and Immunology
- Neurobiology and Behavior
- Nutritional and Metabolic Biology
- Pathobiology and Mechanisms of Disease
- Pharmacology and Molecular Signaling
- Systems Biology

Full tuition, university fees, and generous stipend awarded to all qualified students. Columbia University in the City of New York provides a warm, supportive and accommodating environment for students with disabilities. For more information, visit us at: https://gsas.cuimc.columbia.edu

PLENARY SCIENTIFIC SESSION
12:00 noon - 1:15 p.m.
Rapid Covid-19 Vaccine Development Enabled by Preparedness
(Recommended for All Attendees)

MODERATOR
• Avery August, Ph.D., Cornell University, College of Veterinary Medicine, Ithaca, NY

SPEAKER
• Kizzmekia Corbett, Ph.D., National Institute of Allergy and Infectious Diseases, NIH, Bethesda, MD

CONCURRENT SCIENTIFIC SESSIONS

SESSION 2
1:25 p.m. - 1:55 p.m.
Gut Reactions: Exploring the Amazing Chemistry of the Human Microbiome
(Recommended for All Attendees)

MODERATOR
• Squire Booker, Ph.D., Penn State University, Centre County, PA

SPEAKER
• Emily Balskus, Ph.D., Harvard University, Cambridge, MA

SESSION 3
1:25 p.m. - 1:55 p.m.
Machine Learning Methods for Predicting Genomic Variation
(Recommended for All Attendees)

MODERATOR
• Lydia Contreras, Ph.D., University of Texas at Austin, Austin, TX

SPEAKER
• Mario Banuelos, Ph.D., California State University, Fresno, Fresno, CA

SESSION 4
1:25 p.m. - 1:55 p.m.
Bridging the Gap between Innate and Learned Behaviors: A Parental Role in Promoting Survival
(Recommended for All Attendees)

MODERATOR
• Monique Mendes, Ph.D., Stanford University, Stanford, CA

SPEAKER
• Bianca Jones Marlin, Ph.D., Columbia University, New York City, NY

SESSION 1
1:25 p.m. – 1:55 p.m.
Making the Shift for a Better Future: Centering the Role of Intersectionality in the Sciences

Biomedical Education & Innovation
Developing the Next Generation of Scientific Leaders

Innovation starts with our own curiosity and courage to ask new questions, to head into the unknown and to work within a diverse community. Our education & training programs provide opportunities for talented students and post-doctoral fellows to contribute to the search for medical breakthroughs. Visit our booth to learn more about Novartis and our programs.

2:05 p.m. - 2:40 p.m.
Discipline: Chemistry
(Recommended for All Attendees)

MODERATOR
• Squire Booker, Ph.D., Penn State University, Centre County, PA

PRESENTERS
• 2:05 p.m. - 2:15 p.m.
  0-13 Alejandra Acevedo M., Portland State University
• 2:17 p.m. - 2:27 p.m.
  0-14 Jessica Battle, Webster University
• 2:29 p.m. - 2:39 p.m.
  0-15 David Sanchez-Rodriguez, Inter American University of Puerto Rico, Ponce Campus

SESSION 2
2:05 p.m. - 2:40 p.m.
Discipline: Engineering, Physics and Mathematics
(Recommended for All Attendees)

MODERATOR
• Angela Alexander-Bryant, Ph.D., Clemson University, Clemson, SC

PRESENTERS
• 2:05 p.m. - 2:15 p.m.
  0-16 Alan Hurtado, University of California, San Diego
• 2:17 p.m. - 2:27 p.m.
  0-17 Stephany Alonso, University of California, Irvine
• 2:29 p.m. - 2:39 p.m.
  0-18 Isabelle Linares, University at Buffalo, SUNY

SESSION 3
2:05 p.m. - 2:40 p.m.
Discipline: Neuroscience
(Recommended for All Attendees)

MODERATOR
• Ramesh Raghupathi, Ph.D., Drexel University, Philadelphia, PA

PRESENTERS
• 2:05 p.m. - 2:15 p.m.
  0-19 Srbui Azarapetian, University of California, Los Angeles
• 2:18 p.m. - 2:28 p.m.
  0-20 Naya Ibrahim, University of Arizona
• 2:29 p.m. - 2:39 p.m.
  0-21 Vernon Kennedy, College of Charleston

SESSION 4
2:05 p.m. - 2:40 p.m.
Discipline: Social and Behavioral Sciences and Public Health
(Recommended for All Attendees)

MODERATOR
• Cherrie Boyer, Ph.D., University of California, San Francisco, San Francisco, CA

PRESENTERS
• 2:05 p.m. - 2:15 p.m.
  0-22 Keren Herrán, University of Maryland, Baltimore County

LIVE CHAT BY CAREER TRACK

SESSION 1
2:45 p.m. - 3:15 p.m.
Track: Government
(Recommended for All Attendees)

FACILITATOR
• Edgardo Falcón-Morales, Ph.D., National Institute of General Medical Sciences, Bethesda, MD

SESSION 2
2:45 p.m. - 3:15 p.m.
Track: Industry
This session is co-sponsored by Biogen, Inc. and Alliance for Regenerative Medicine.
(Recommended for All Attendees)

FACILITATORS
• Chérié Butts, Ph.D., Biogen, Cambridge, MA
• Francesca Cook, M.P.H., Senior Director, Regenxbio, Rockville, MD

SESSION 3
2:45 p.m. - 3:15 p.m.
Track: Entrepreneurship
(Recommended for All Attendees)

FACILITATOR
• Tshaka Cunningham, Ph.D., TruGenomix, Inc., Rockville, MD

CONCURRENT PROFESSIONAL DEVELOPMENT SESSIONS

SESSION 1
3:25 p.m. - 4:10 p.m.
Goal Setting and Time Management
(Recommended for Community College, Undergraduate, and Postbaccalaureate Students)

MODERATOR
• Janice Reynaga, Ph.D. Candidate, University of Pennsylvania, Philadelphia, PA

SESSION 2
3:25 p.m. - 4:10 p.m.
Training for a Career as a Physician Scientist (MD-PhD)
(Recommended for Community College, Undergraduate, and Postbaccalaureate Students)

SPEAKERS
• Myles Akabas, M.D., Ph.D., Albert Einstein College of Medicine of Yeshiva University, Bronx, NY
• Lawrence Brass, M.D., Ph.D., University of Pennsylvania, Philadelphia, PA

SESSION 3
3:25 p.m. - 4:10 p.m.
Diversifying the Scientific Workforce: Progress at the National Institutes of Health & Next Steps
(Recommended for Graduate Students and Postdoctoral Scientists)

SPEAKERS
• Ofelia Olivero, Ph.D., National Cancer Institute, NIH, Bethesda, MD
• Lyl Tomlinson, Ph.D., National Institutes of Health, Bethesda, MD

SESSION 4
3:25 p.m. - 4:10 p.m.
An Introduction to National Institutes of Health Undergraduate and Predoctoral Grant Programs
(Recommended for Nonstudents)

SPEAKERS
• Anissa Brown, Ph.D., National Institute of General Medical Sciences, NIH, Bethesda, MD
• Luis Cubano, PhD, National Human Genome Research Institute, NIH, Bethesda, MD
• John Laffan, Ph.D., National Institute of General Medical Sciences, NIH, Bethesda, MD
In 1969, the University of Alabama at Birmingham was born. An independent institution rooted in the Magic City, created from the union of a university extension center and a pioneering academic medical center. Since then, UAB has saved lives, solved problems, expanded knowledge, and opened doors.

Our ideas and innovations have energized our community and transformed UAB into an institution for anyone ready to change the world.

Bridges to the Doctorate

Scholars will complete their Master of Science degree in a laboratory at Towson University and ultimately enroll in a doctoral program.

Eligibility:

- Blacks or African Americans
- Hispanics or Latinx
- American Indians or Alaska Natives
- Native Americans
- Disabled

Benefits:

- Tuition waiver
- Salary
- Mentorship
- GRE Prep
- Funding to travel to research conferences

ABOUT THE BROAD INSTITUTE

The Broad Institute of MIT and Harvard is a non-profit, independent research institute and a global leader in genomics and biomedicine. A deeply collaborative community, the Broad brings together more than 300 faculty and more than 1,500 researchers from across MIT, Harvard and Harvard-affiliated hospitals, working together to solve critical problems in biomedicine.

Opportunities for summer research, post-baccalaureate and post-doctoral training, and scientific careers

Kedar Perkins participated in the Broad Summer Research Program (BSRP) in 2012. B.S. Chemistry, University of Maryland; Ph.D. Polymer Chemistry, Carnegie Mellon University.

Highlights from the Pharmaceutical Industry

Friday, November 13
03:00PM - 03:10PM EST

We believe it is our responsibility to deliver healthier tomorrows through the 5 focus areas of our work: pharmaceuticals, oncology, vaccines, animal health, and our discovery hubs – all working to help patients and communities around the world. From the first diphtheria antitoxin introduction in 1895, all the way to responding to the Ebola outbreak in 2019, our people have made it possible to deliver a high quality, reliable supply of products and solutions to customers and patients on time, every time.
