Exhibitor Services

Clusters
ABRCMS welcomes organizations/institutions/departments interested in clustering within the exhibit hall. Clusters typically share a common interest or alliance or work together in some capacity. A cluster must comprise a minimum of five (5) booths to be eligible for priority selection of exhibit booths prior to the launch of general exhibit sales. For a cluster to be eligible to participate in the priority exhibit booth selection program, intent form must be submitted by Tuesday, May 24. Each booth within a cluster must pay with a credit card by June 28 to reserve their space; Institutional check or money orders are not accepted as a form of payment for cluster booths.

Online Exhibitor Profile
Confirmed exhibitors have the opportunity to submit a short company description along with contact information in the ABRCMS eDirectory. Attendees have access to this floor plan starting in July and can contact exhibitors before arriving in Anaheim. In addition, each exhibitor will have an online portal to submit a booth application, make a payment, check status of application and print a receipt.

Online Abstract Database
An online abstract database will be posted on the conference website two weeks before the start of the conference. Early release of abstracts offers exhibitors the ability to organize recruitment plans before arriving in Anaheim.

Lead Retrieval System (LRS)
Each 10’ x 10’ booth space will receive one complimentary SWAP activation to capture the demographic information of every attendee by simply scanning their name badges. Your LRS will collect and store information to make it easy to follow-up with key prospects and quantify the benefits of exhibiting. Fields captured include name, university, address, e-mail, phone number, registration type, education level, and scientific discipline. Additional activations and devices are available for purchase.

Institutional Exhibitor Teams
ABRCMS encourages Institutional Exhibitor Teams. These teams include at least four individuals, each assuming a unique role:
- Research faculty share information about science courses and programs, research opportunities and mentors, career planning, and information pertinent to the research community.
- Postdoctoral fellows offer the above as well as personal perspectives on staying focused on research, working with mentors, completing graduate school, seeking postdoctoral opportunities, etc.
- Graduate students share information about courses, mentors, research opportunities, campus environment, social life, and networks, as well as how to best manage time in the first two years of graduate school.
- Graduate deans or administrators provide general information about the institution, including deadlines and requirements for summer and graduate programs.

General Contractor
Freeman is the official ABRCMS General Service Contractor. An ABRCMS Exhibitor Service Manual will be shared with each primary exhibit contact via email at least two months prior to the conference. The manual includes information on exhibit rules and regulations, shipping addresses and order forms, freight and labor deadlines, and procedures for purchasing additional booth furniture.

Pre-Conference Exhibitor Orientation Webinar
Obtain a brief overview of what to expect at ABRCMS and ask any pre-conference questions before arriving in Anaheim. The webinar will highlight ABRCMS attendee and exhibitor statistics and offer overviews of exhibitor services from Freeman and registration and lead retrieval services from Maritz (formerly Experient).
